

PRODUCT

NATURMATIC PLUS

DEGREASER SCRUBBER

DESCRIPTION

Degreasing product specially formulated to eliminate grease type dirt. Presents in its composition low foam surfactants that make it especially suitable for use by injection-extraction machines leaving a pleasant aroma.

APPLICATIONS

Use as degreaser for automatic scrubber machines

HOW TO USE

The dosage of the product varies depending on the state of the surface on which it is going to be used, as a guide it is recommended to make dilutions in water that oscillate between 1:30 and 1:20.

SECURITY MEASURES

Avoid contact with eyes and skin. In case of contact, rinse with plenty of water and if irritation persists, see a doctor immediately.

In case of accidental ingestion, go immediately to the doctor.

Use gloves for handling.
